PROFESSIONAL SUMMARY

Senior Full Stack Engineer with 9+ years of experience building scalable SaaS and fintech solutions. Proven track record of leading end-to-end development cycles, reducing deployment times by 85%, and improving system performance by up to 90%. Expertise in modern web technologies, API development, and remote team collaboration across multiple time zones.

Core Competencies: Ruby on Rails • React/Next.js • Golang • Python • GraphQL • REST APIs • Docker • Kubernetes • Payment Integration • Remote Leadership.

PROFESSIONAL EXPERIENCE

Lead Full Stack Engineer   **Feb 2024 - Feb 2025**
Clikdone.com | Location: Remote(Dubai, United Arab Emirates)
Led MVP development and technical architecture for early-stage startup

- Architected MVP for the startup, leading full-stack development of ERP module and payment features for the app
- Integrated Stripe payment system enabling premium user onboarding along with subscription capabilities
- Built real-time search using Turbo/Stimulus, reducing response time from 2s to 200ms
- Automated deployment pipeline with Git, reducing deployment time by 85% (45min to 7min)
- Implemented Sidekiq background processing for 10K+ daily email/SMS notifications
- Integrated and automated onboarding for Twilio's SMS API for User onboarding removing all manual processing

Full Stack Engineer   **Nov 2022 - May 2023**
Dome Global Inc. | Location: Remote(India)
Built foundational platform architecture for pre-seed PaaS startup

- Architected scalable REST API backend using Golang with ArangoDB graph database for complex relationships
- Developed responsive Next.js frontend application with modern React patterns and component architecture
- Implemented secure JWT-based authentication pipeline with role-based access control and session management
- Established Git-based CI/CD automation pipeline for seamless development and deployment workflows
- Created comprehensive Swagger API documentation and technical specifications for development team

Full Stack Engineer   **Aug 2019 - Oct 2022**
Mavenlink Inc. | Location: Remote (Salt Lake City, Utah, United States)
Enhanced core project management platform serving 100K+ users

- Extended multi-currency support for budgeting/invoicing enabling $50M+ international transactions
- Built GraphQL API endpoints for task management improving data fetching efficiency by 60%
- Optimized task module performance through database tuning, reducing page load times by 90%
- Implemented expense workflows supporting 15+ currencies with real-time conversion
- Managed production deployments maintaining 99.8% application uptime
- Collaborated with 8 product managers and 5 UX designers on feature development

Senior Software Engineer   Nov 2015 - July 2019
<u>**Goldman Sachs & Co.**</u> | Location: Salt Lake City, Utah, United States
*Strategic engagement with **application development** teams to provide timely **end-to-end delivery** of appropriate **platform solutions**. Driving strategic initiatives and delivery of key programs of work across Middleware Engineering.*

- Automated FX derivatives clearing increasing cleared capital capacity by 70% ($2B+ volume)
- Implemented NDF clearing flows across G10 currencies processing 50K+ daily trades
- Built trade eligibility automation for FX Options/Forwards reducing manual processing by 95%
- Enhanced Credit Clearing workflows for Brexit compliance preventing $10M+ penalties
- Delivered MIFID-II regulatory framework ensuring 100% compliance across trading operations
- Trained and mentored 10 consultant engineers on proprietary middleware systems

Senior Research Engineer   Jul 2011 - Jul 2014
<u>**Hitachi R&D**</u> | Location: Bangalore, India

- Conducted market research for Enterprise Management Software identifying $50M+ opportunity
- Developed 40+ technical POCs for enterprise clients achieving 60% conversion rate
- Established strategic partnership between Hitachi Japan and TCS India for joint solutions

Technical Consultant   Aug 2010 - Jun 2011
<u>**Oracle, India**</u> | Location: Bangalore, India

- Led 75+ technology discovery sessions generating highest sales pipeline on 12-person team
- Created 30+ POC demonstrations for database/middleware solutions supporting $5M+ quarterly sales

Technology Consultant   Feb 2009 - Aug 2010
<u>**Hewlett Packard India**</u> | Location: Bangalore, India

- Resolved 140+ enterprise deployment cases achieving 70% client demonstration close rate
- Delivered technical solutions for HP enterprise customers with professional services team

EDUCATION

Dehradun Institute Of Technology | *B.Tech in Information Technology*   Nov 2004 - June 2008
- GPA: 3.4/4.0

University of Utah | *Master of Science in Information Systems*   Aug 2014- Aug 2015
- GPA: 4/4.0
- *Student Associate*, Lassonde Entrepreneurship Institute

SKILLS

Languages & Frameworks: Ruby on Rails (ROR), Ruby, React, Next.js, Node.js, Java, Golang, Python, Javascript, Typescript, HTML5, CSS3, jQuery, GraphQL
Databases: PostgreSQL, ArangoDB, MySQL, Oracle, Redis, MongoDB
DevOps & Tools: Docker, Kubernetes, Git, AWS, Heroku, CI/CD, Sidekiq, Stripe API, JWT, Swagger
Specializations: Remote Team Leadership, Cross-functional Collaboration, Performance Optimization, Payment Integration, API Development, Graph Databases
